

## **Internal Audit – Chart Reviews**

Samaritan Advantage Health Plan (SAHP) will conduct an internal audit by reviewing documentation in patient medical charts to ensure accurate medical documentation supports claim submissions to SAHP. SAHP will identify the areas within the medical chart that need improvement and will provide education to providers as needed on current ICD-9 Coding Guidelines and CMS rules and regulations.

The Internal Audit – Chart Reviews are designed to mimic a CMS audit in the instance that CMS audits SAHP for the purpose of determining accurate payments to SAHP.
