

# Welcome to Good Samaritan Regional Medical Center

Thank you for choosing us for your care. We look forward to seeing you for your procedure.

In response to the COVID-19 pandemic, we have outlined a few policies for visitors of hospitalized patients. **Please note:** Some of these policies are specific to Good Samaritan Regional Medical Center and may not be in place at other Samaritan-affiliated facilities.

1. Visiting hours are from **10 a.m. to 7 p.m. daily.**
2. Patients are allowed one visitor per day. Once that visitor leaves the hospital, they will not be allowed to return that day.

Visitors to Good Samaritan Regional Medical Center must:

1. Wear a face mask or face covering at all times, **including while in the patient room.**
2. Respect social distancing and keep at least six feet between them and others.
3. Use hand sanitizer when entering and exiting the patient room.
4. Remain in the patient room at all times except when entering and exiting the hospital and using the restroom.
  - a. The cafeteria is **closed** to visitors, but room service is available for visitors by calling **ext. 3663.**

**Thank you for helping us keep our patients, staff and community safe! More information is available at [samhealth.org/Corvallis](https://samhealth.org/Corvallis) and [samhealth.org/Coronavirus](https://samhealth.org/Coronavirus).**
