## Our sleep lab and centers

With locations in Albany and Newport, we are able to provide timely sleep studies to residents of the mid-Willamette Valley and central Oregon Coast.

All three locations have the same medical director, providing consistency and ensuring that the best possible care is available no matter where you go. This allows us to see patients at a location convenient to where they live or work. Not all sleep services are provided at each location.

### Newport

#### Samaritan Pacific Sleep Lab

930 SW Abbey Street | Newport | 541-574-4944

We are located in the Samaritan Pacific Communities Hospital.

The Samaritan Pacific Sleep Lab is accredited by the Accreditation Commission for Health Care. Located close to coastal towns, the Samaritan Pacific Sleep Lab provides an array of diagnostic and treatment options for sleep disorders for adults and children. Direct referrals are accepted.

The lab consists of two private sleep evaluation rooms for daytime, overnight and CPAP titration studies. Home sleep testing is available.

# Albany

## Samaritan Sleep Center – North Albany
